

PLAYBOOK · S&OP IN 6 STEPS

One plan, not **three** versions of the truth

Sales and operations planning, step by step

Hammad Ulhaq

Head of Supply Chain · 20+ yrs FMCG & Beverages

SUPPLY CHAIN 101 • S&OP

What S&OP **really** is

- One agreed plan for demand, supply and money
- Runs every month and looks months ahead
- Ends with a decision, not a status update

STEPS 1 AND 2

Clean data, **honest** demand

- Close last month: actuals, stock, master data
- Sales and marketing agree one forecast
- Flag promotions, launches and known risks

STEPS 3 AND 4

Test it against **supply**

- Check capacity, materials, warehouse, fleet
- Supply gap = demand plan minus capacity
- Illustrative: 120,000 minus 100,000 = 20,000 cases short

STEP 5 · PRE-S&OP

Options with a **price** tag

- Build ahead, add a shift, or protect top SKUs
- Show each in cost, service and inventory
- Bring 2 or 3 choices, not one answer

STEP 6 • EXECUTIVE S&OP

Leaders **decide**, then commit

- Pick one option and name the owner
- Freeze the plan everyone executes
- Next month, check: did we do what we said?

THE TAKEAWAY

S&OP is judged by the decisions it makes
